

**Chronic Care Management
Welcome & Check List**

Thank you for allowing us to better care for your child by joining the ULP Pediatric Chronic Care Management (CCM) program. CCM is a new way to help care for your child by improving coordination of your child's health care while paying special attention to your child's overall health. We believe that to reach this goal, you and your child's doctor must work together.

PLEASE USE THIS CHECKLIST FOR APPOINTMENTS:

- Make a list of questions you have about your child's health.
- Let the CCM nurse and doctor know about new problems or recent medical visits, including any trips to a clinic or emergency room.
- Bring a list of all the medicines your child takes, including ones not given to you by a doctor, like vitamins or cold medicines.
- Before leaving our clinic, make sure you have a list of all your next appointments.
- Sign up for the Patient Portal www.uoflphysicians.com/followmyhealth This is an easy way to ask questions and get answers from your CCM nurse or doctor. Please call us if you have an urgent question.
- Call (502) 588-3440 day or night to reach a UofL doctor.

Your CCM Nurse is: Tammy Rominger, RN (502) 588-3452

Your child's doctor is: _____

Your child's clinic is: _____
