Our vision is a society that includes, values and empowers individuals with developmental disabilities.

Please contact us to access our services by calling 502-584-1239, <https://councilondd.org/contact>

[Direct Family Support](#)

Providing genuine, one-to-one assistance when an individual and/or family needs guidance to understand their options to access community services and supports.

[Legal Decision Making Tools \(Transition Planning\)](#)

Understanding the legal decision making tools available to individuals with developmental disabilities is essential to our mission of supporting inclusive communities. Contact us to learn more about Supported Decision Making Models, Power of Attorney (POA) Documents and Legal Guardianship/Conservatorship.

[Resource Events/Social Events](#)

The Council is working with community partners to plan social gatherings and events. Due to COVID-19 and the sensitivity of the individuals we serve all gatherings will be virtual until further notice. These events can be found on our social media platforms.

[Group Training Series](#)

We offer group training opportunities throughout the year on topics specific to our community's needs. Our established trainings include: The Role of the Legal Guardian, Financial Planning for Individuals with Special Considerations, and our L.E.A.D. Training (Leadership, Education and Advocacy Development).

[Arts Outreach](#)

The Council's offers artistic experiences to develop self-expression, self-advocacy skills, and community connections. We offer experiences in photography and participation in local art exhibits.

[Educational Support](#)

Our educational support can help parents navigate public school systems to obtain the most appropriate educational services for their child. We also collaborate with local school districts to improve the quality of education programs for children.

[Financial Empowerment](#)

The Council helps individuals and families to know about specific financial tools available for future planning as well as resources for today's needs. We can offer individuals consultation to help guide families to the strategies they need for peace of mind.

[Governmental Affairs and Public Policy Advocacy](#)

Since 1952, The Council has identified gaps in services for people with disabilities. We actively participate with policy makers to advocate for the needs and interests of the people we serve.
